WD-**35(36)*TD(K)

This diagram illustrates the exploded view of a vehicle chassis assembly. The central component is the main chassis housing, which is surrounded by various sub-assemblies and individual parts. Key components include the front suspension system (K510, K130, K131, K530, K610, K611), the rear suspension system (K351, K350, K360, K143, K123, K121, K122, K125, K320, K310, K311, K105), the steering system (K115, K110, K141, K111), the brake system (K520, F461, K540, K550), and the engine/motor assembly (F140, K411, K410, F320, F466, F464, F310, K140). The diagram uses dashed lines to show the relative positions and assembly sequence of the components. The labels are enclosed in circles and connected to the corresponding parts by lines.
